

2024 Okaloosa County Annual Progress Report Local Mitigation Strategy and Community Rating System

Introduction

In 2016, Okaloosa County and all its municipalities adopted a substantially revised version of the Local Mitigation Strategy (LMS). The new LMS was found in compliance by the Florida Division of Emergency Management in July 2016, and by the Federal Emergency Management Agency in August 2016. This substantially revised version was updated in 2021 in accordance 44 CFR 201.6. The 2021 LMS was found in compliance by the Florida Division of Emergency Management and the Federal Emergency Management Agency on October 18, 2021.

All the municipalities as well as the County have passed ordinances or resolutions adopting the 2021 LMS. Because it includes a comprehensive analysis of the County's and municipalities' floodplain areas and floodplain management strategies, as well as analyses of all other hazards by which the County is threatened, the 2021 LMS serves as the County's Hazard Mitigation Plan as provided in Section 510 of the Community Rating System (CRS) Coordinator's Manual.

This Annual Report is structured to comply with the requirements of CRS Activity 510 reporting criteria as provided in Section 510 of the National Flood Insurance Program Community Rating System Coordinator's Manual, FEMA publication FIA-15/2017.

Annual Report Preparation, Submittal to Governing Bodies, Release to Media, and Public Availability

This annual report was prepared internally by the Planning Division of the Okaloosa County Growth Management Department and has been distributed to all the municipalities.

For credit under the Community Rating System, this Annual Report must be distributed to the media and be made available to the public. To this end, it is being sent to the Northwest Florida Daily News, and copies of this Report are available for review or download online at the Growth Management portion of the County Website, and may be viewed or obtained in hard copy at the Growth Management Department's offices located at the Okaloosa County Administrative Complex, 1250 N. Eglin Parkway, 3rd Floor in Shalimar, or the North Planning Office located at 402 Brookmeade Drive in Crestview. The entire 2021 LMS, as amended, may also be accessed via the Growth Management portion of the County website or at the previously mentioned Growth Management office locations.

Revisions to Local Mitigation Strategy

As of this writing, no revisions have been made to the programs and strategies of the 2021 LMS.

The following projects have been completed: See attached project list.

The following project has been removed from the attached project list. See attached project list.

Status of LMS Goals and Objectives

At this time, much of the work identified in the LMS is ongoing.

The Goals and Objectives (the statements under each Goal), provide the broad range of what is to be accomplished during the five-year planning period from 2021 through 2026 by the LMS Steering Committee. Since Action Items are, for the most part, ongoing activities – such as implementation of the Florida Building Code, Floodplain Management practices, etc. – that are undertaken as part of the County’s and municipalities’ day-to-day operations, their status is ongoing. Projects, on the other hand, may be part of on-going, programmatic activities (such as, for example, installing generators to supply emergency power at key infrastructure) or major, one-time (or at least very long term) upgrades of facilities such as the construction of a new emergency operations center. **At the time of this 2024 Annual Report, all of the Goals and Objectives are being met.**

2021 LMS Projects (with 2024 Update)

Accompanying this Update is the current list of LMS projects as approved by the LMS Committee. This list also provides the **status** of each project, and states the reason (typically lack of funds) for any projects for which action has been deferred.

Recommendations for New Projects or Revised Recommendations

3 new projects have been added to the project list. (See highlighted items in the attached list.)

1 project has been removed from the project list. (See items listed in the attached list.)

3f	Flood Proofing Lift Stations	2010	Storm proof lift stations 4, 8, 9, 10, 14, 15, & 17, elevate tops of wet wells, valve boxes, relocation of emergency power supplies, and storm hardening controls. To include bulkheads and/or retaining walls	Hurricane & Tropical Storm; Flood; Land Erosion; Severe Storms; and Beach Erosion	yes	City of Valparaiso		City of Valparaiso	City of Valparaiso - Water & Sewer Dept.	\$600,000.00				X	No Funding	3 months	Existing	City of Valparaiso	Y
3g	Restoration of wetlands in Glenwood Park and upgrade the drainage system	2010	Restoration of wetlands in Glenwood Park and upgrade the park's drainage system	Hurricane & Tropical Storm; Flood; Storm Surge	yes	Town of Cinco Bayou		Town of Cinco Bayou	Town of Cinco Bayou - Public Works	\$15,000.00				X	No Funding	1 year	Existing	Town of Cinco Bayou	Y
4a	Undergrounding of Utilities	1999		Hurricane/Tropical Storms		Okaloosa County/Developer		Okaloosa County	Okaloosa County and Developers	\$158,000.00 per mile				X	On going	Required for new developments with a density of 4 dwelling units per acre and	Existing	Unincorporated Okaloosa	Y
5a	Stormwater swales and retention for Maltozos Street area	2014	Provide a stormwater management system for this neighborhood by constructing swales and exfiltration systems.	Flood; Hurricane & Tropical Storm; and Severe Storms	yes	City of Destin		City of Destin	City of Destin- Public Works	\$460,000.00				X	No Funding	1 year	Existing	City of Destin	Y
5b	85-A Culvert Crossing	1999	Culvert is to small to accommodate stormwater	Hurricane and Tropical Storm; Flood; and Severe Storms	yes	City of Laurel Hill		City of Laurel Hill	City of Laurel Hill - Public Works Dept.	\$30,000.00				X	No Funding	120 days	Existing	City of Laurel Hill	Y
6b	Repetitive Loss Relocation and/or Acquisition	1999	There are several properties, including concrete masonry unit houses built with slab on grade, which flood during storm events. Due to this type of construction, elevation is not an alternative. The structures should be relocated or acquired by the City to prevent future losses.	Flood; Hurricane & Tropical Storm; Severe Storms and Storm Surge	Existing Building Mitigation in Flood-prone locations	City of Fort Walton Beach		City of Fort Walton Beach	City of Fort Walton Beach	\$2,000,000.00 +				X	No Funding	18 months	Existing	City of Fort Walton Beach	Y
7a	High efficiency 2 million gal/day lift at ation	2011	Installation of new high efficiency 2 million gallon/day lift station. Current lift at ation handles 50% of all sewage, is located in the flood zone, and is obsolete	Flood; Hurricane & Tropical Storm; Severe Storms and Storm Surge	yes	City of Valparaiso		City of Valparaiso	City of Valparaiso - Public Works Dept	\$700,000.00				X	No Funding	1 year	Existing	City of Valparaiso	Y
8a	Arena Road Drainage Improvements	2010	A portion of Arena Road, an unimproved roadway, holds water during wet periods and floods during high rainfall events. This project would pipe water from the road and direct it to a retention pond.	Hurricane & Tropical Storm; Flood; and Severe Storms	yes	City of Crestview		City of Crestview	City of Crestview - Public Works Dept.	\$51,000.00				X	No Funding	90 days	Existing	City of Crestview	Y
8b	Beal Street Lift Station Relocation	2010	Lift Station is old and in the floodplain. New lift station needs to be in the same vicinity, at a higher elevation.	Hurricane & Tropical Storm; Flood; severe storms; and Storm Surge	yes	Okaloosa County		Okaloosa County	Okaloosa County - Water & Sewer Dept.	\$600,000.00				X	No Funding	18 months	Existing	Unincorporated Okaloosa County within the Okaloosa County Water & Sewer Service Area	Y
9	Retaining Walls for Lift Stations #11, #20, and #21	2010	Lift stations 11, 20, and 21 are subject to occasional flooding but can be protected by the installation of retaining walls.	Hurricane and Tropical Storm; Flood; and Severe Storms	yes	City of Crestview		City of Crestview	City of Crestview - Water & Sewer Dept.	\$18,000.00				X	No Funding	60 days	Existing	City of Crestview	Y
10a	Resurfacing of secondary/residential streets	2010	Resurface the streets maintained by the Town of Cinco Bayou	Hurricane/Tropical Storm and Flooding	yes	Town of Cinco Bayou		Town of Cinco Bayou	Town of Cinco Bayou - Public Works Dept.	\$500,000.00				X	No Funding	1 year	Existing	Town of Cinco Bayou	Y
10b	South Avenue/Thornhill Road Area Drainage Improvements	2010	Regional stormwater management and drainage improvements.	Hurricane & Tropical Storm; Flood; and Severe Storms	yes	Okaloosa County		Okaloosa County	Okaloosa County - Public Works Dept.	\$5,000,000.00				X	No Funding	770 days	Existing	Unincorporated Okaloosa County within the Thornhill Road Area	Y
10c	Shady Lane/Woodlawn Drainage Problems	2010	Persistent drainage problems causing flooding and road closures	Hurricane & Tropical Storm; Flood; and Severe Storms	yes	City of Crestview		City of Crestview	City of Crestview - Public Works Dept.	\$412,000.00				X	No Funding	150 days	Existing	City of Crestview	Y
10d	Racetrack Road Sanitary Sewer Rehab	2010	Rehab on 18" gravity sewer line made of vitrified clay. It is crumbling and allowing infiltration into the sewer system.	Hurricane/Tropical Storm and Flood	yes	Okaloosa County		Okaloosa County	Okaloosa County - Water & Sewer Dept.	\$1,800,000.00				X	No Funding	6 months	Existing	Unincorporated Okaloosa County within the Racetrack Road area	Y
10e	Force main upgrade, Lift Station #10	2010	Increased flows during heavy rains and hurricane conditions overwhelm the force main at Lift Station #10 that serves the county jail and surrounding area.	Hurricane & Tropical Storms; Flood; and Severe Storms	yes	City of Crestview		City of Crestview	City of Crestview - Water & Sewer Dept.	\$300,000.00				X	No Funding	90 days	Existing	City of Crestview	Y
